The preservation of the quality and efficiency of the pillow requires following a few simple rules of correct use and care, which you will find in this booklet.

All Technogel® Travel Supports and covers are covered by a 2-year limited warranty against defects in materials or workmanship starting from the date of purchase. This Limited Warranty applies, subject to normal wear and tear, when the products are used as intended following all Technogel instructions and requirements. The Limited Warranty can be extended up to 1 additional year, with the exclusion of the textile covers, for a total of 3 years, by registering, within 3 months from the date of purchase, to the website www.technogelworld.com in the Limited Warranty dedicated section, which you will find in the home page. All claims under this Limited Warranty must be accompanied by the original receipt of purchase indicating date of purchase, and name of the retailer and delivery of the pillow to the retailer.

Instructions for use.

Your new Technogel® Travel Support has been produced with the highest quality materials and state-of-the-art technologies. In order to achieve high performance for the life span of the pillow and for proper pillow care it is sufficient to know and apply the following simple norms of use and care:

- NEVER LEAVE THE TRAVEL SUPPORT IN ENVIRONMENTS WITH TEMPERATURE OVER 109°F OR LOWER THAN 50°F. THE PILLOW MAY RETAIN THE HEAT AND MAY BE UN-ADEQUATE FOR USE;
- The materials used may have their own specific odor, which will diminish in a short period of time. Leave the pillow out of its packaging in a dry, ventilated place for at least 12 hour before using it for the first time;
- A slight depression or change in softness, due to morphological adaptation, shall be considered normal;
- Do not use solvents or chemical substances on the fabric;

6

- Do not use irons, blow dryers or other heat sources on the fabric when in place and/or on the pillow itself;
- Do not use steamers or steam sterilizers to hygienize the Travel Support. Such treatment would jeopardize the texture and duration of the pillow;
- The sewed protection cover shall not be wet, washed with water or ironed;
- Do not remove the sewed protection cover. The warranty is void if the cover is broken;
- Store horizontally in a dry place between 50°F and 109 °F, with no weight on top;
- Do not expose the Travel Support to sunbeams or external agents such as UV rays, fire, water or steam;
- Pillow protector is recommended;
- It is advisable to use the pillow between 60,8 °F and 77 °F, with a relative humidity of approximately 50%;
- Do not allow your Travel Support to get wet. Protect it from water or other liquids;

- Do not remove the law tag label at the end of your Travel Support;
- Do not wash or dry clean the core (foam and Technogel® combination) of your Travel Support;
- Avoid contact with sharp objects or edges that could tear or cut the Travel Support.

The Technogel Limited Warranty is valid only if the Technogel® Travel Support has been used in accordance with all of the foregoing and following instructions and recommendations:

- It has never been used as to cause harm, damage and/or deformation/alteration to the components of the product;
- It has not been wet and/or stained (it shall look perfectly clean and in excellent sanitary conditions);
- Different use from the declared intended use. In particular, the pillow is conceived solely for supporting the head of people. It is not indicated for children under 3 years (36 months) of age and animals;
- Non-compliance with the recommended use and maintenance advice provided;

- The product has not been altered or tampered with by an unauthorized person;
- The Travel Support has sustained intentional or accidental damage.

The above-mentioned actions relieve Technogel of any responsibility for any damage, direct or indirect, of any nature whatsoever, to people or things, as a result of improper use.

The Travel Support comes with a second protective cover that can be washed, following the instructions on the label attached to the cover.

WARNING: Discard the plastic wrapping on your pillow as soon as possible; a child or pet can become entangled and suffocate. For security reasons do not expose the Travel Support to excessive direct heat sources (sun rays, microwaves oven, cooking plate, match, embers, cigarette etc.).
